CURRICULUM STATEMENT- YEAR TWO

Building upon the Year one and underpinned by our Mission Statement...

INTENT

In Year 2, we have a happy, safe, learning environment that encourages everyone to fulfil their potential. Children of all abilities are challenged and have an 'I can' attitude and believe in the power of 'yet'. Our learners are resilient, independent and their confidence is developed. They are curious and inquisitive. Children are encouraged to take risks and to use their skills and knowledge to problem solve across the curriculum knowing that achievements are celebrated and mistakes are learned from.

IMPLEMENTATION

In Year 2, we provide a well-planned, broad and balanced curriculum that engages all learners and allows children to develop skills and knowledge that are embedded and consolidated.

Good subject knowledge ensures quality teaching and learning.

Differentiation, support and challenge is individual and is provided through a consistent approach based on high expectations, creative teaching, WOW experiences, exciting topics which engage children and stimulate their interests.

Children are encouraged to take ownership of their learning through a cross curricular approach.

IMPACT

In Year 2, our learners are confident, resilient and independent. All children make progress and we continually monitor this to ensure it is good or outstanding.

Children are well prepared for their transition to the next stage of their education.
